TECHNICAL SKILLS

- Customer Rapport
- Debugging
- Salesforce
- Data Entry
- Excel
- Adobe Illustrator
- 70 wpm

PROFILE

I am a front-end developer with experience building applications with JavaScript (ES6+), React, jQuery, HTML5, CSS3, SCSS and API integrations. My passion in bringing creative designs and ideas into life through programming motivates me to write codes that are clean, responsive and problem-solving.

PROJECTS

THE AIR PROJECT | [LIVE] [REPO]

HTML5, SCSS, Responsive Design, JavaScript, RESTful API

A paired application that takes in user's choice of country, state, and city to display the city's current quality of air and other weather information

WHAT DO YOU NO | [LIVE] [REPO]

React, Git Collaboration, HTML5, CSS3, RESTful API

Used Datamuse API to fetch homophones of 10 words and asks user to match definition to the correct word. Collaborated among four Juno College students.

PLANTED | [LIVE] [REPO]

HTML, SCSS, a11y, JavaScript

Conversion of a PSD design into a pixel perfect multi-page website that that is fully responsive and accessible with notable implementations such as version controls via GitHub and BEM naming conventions

EXPERIENCE

Liens Coordinator

TRADEREV | 2019 - 2021

- Assisted in launching car dealers onto TradeRev's app and maintain strong customer rapport with 100+ clients via Salesforce.
- Took an initiative to learn new skill, Puppeteer, to significantly reduce work load of the team by automating tasks
- Resolved escalated liens disputes between frustrated buyers and sellers using clear email and phone communications daily.
- Demonstrated great attention to detail by ensure lien records to be accurate three times a day using Excel
